

Waddell & Reed Financial Advisor Internship Program

- The position of Financial Advisor Intern will act as a key support person for the Financial Advisor and their individual Waddell & Reed practice. This allows an intern the unique ability to step in to a job shadowing experience and see first hand what it is like to run a Financial Planning practice while helping a Financial Advisor manage their practice.
- The Financial Advisor Internship is offered year round and does not always coincide with a traditional college semester format.
- The intern will support the Financial Advisor in many activities not limited to
 - Marketing
 - Client Servicing
 - Creating illustrations and proposals
 - Client data input and database maintenance
 - Basic administrative duties
 - **NO COLD CALLING will be done**
- At Waddell & Reed we understand that completing your college education is priority number one. With that we offer a highly flexible schedule to accommodate classes and studies.
- The internship is a paid one that begins at \$8.00 per hour. This starting hourly rate can be increased frequently at the advisor's discretion and after performance reviews.
- Often times the internship experience leads to a career opportunity as a Waddell & Reed Financial Advisor. Candidates with this goal in mind are highly desirable.
- Additional perks are at the option of the Financial Advisor and can include payment of new advisor candidate licensing fees.
- **An internship position such as described is highly sought after. Each year we receive hundreds of requests. If we are unable to place you this go around, please don't hesitate to keep in touch for future intern and Financial Advisor opportunities.**
